WORK EXPERIENCE

Software Engineer Intern at Techsharathi Consultancy 01-sep-2025 to Now
Collaborated closely with cross-functional teams in an Agile environment, participating in daily stand-ups, code reviews, and sprint planning while gaining hands-on experience in the complete software development lifecycle. Developed a strong understanding of professional practices, including version control with Git, clean code standards, teamwork, company ethics, and delivering production-ready features in a real -world corporate setting.

Projects

Techsharathi Academy -
Added new section in web called “Academic Courses”, to implement that I have added course data like Boards, Branches, Semesters, Subjects and subject content in the Postgres database and created an Api’s using NodeJS and ExpressJS for Crud operation and created a full responsive Frontend for the user to view and purchase the Courses. I have used Razorpay for payment, JWT for authentication [Link](#)

AstroSharathi -
Integrated Google OAuth for Login, Used Razorpay for payment, designed multiple pages, bind the functionality with the backend API, make it fully responsive for all type of screens then performed testing found 30+bugs and resolved all those bugs. [Link](#)

SkinClaro-
Binded the API from frontend and designed the fully responsive and user friendly interface to interact with the LLM based backend to track the condition of the skin. [link](#)

VastuSharathi-
Added a fully functional ‘Customer Reviews’ page by creating a new table in the database and created the API’s in Python to perform the CRUD operation.
Added a Product section with fully functional e commerce ERP. Added all the required pages like Products, Wishlist, Cart, Orders including razor pay with the existing Admin panel

ACHIEVEMENTS

Full stack E commerce project completion certificate. [link](#)
Completed end-to-end project delivery independently, demonstrating strong self-management
